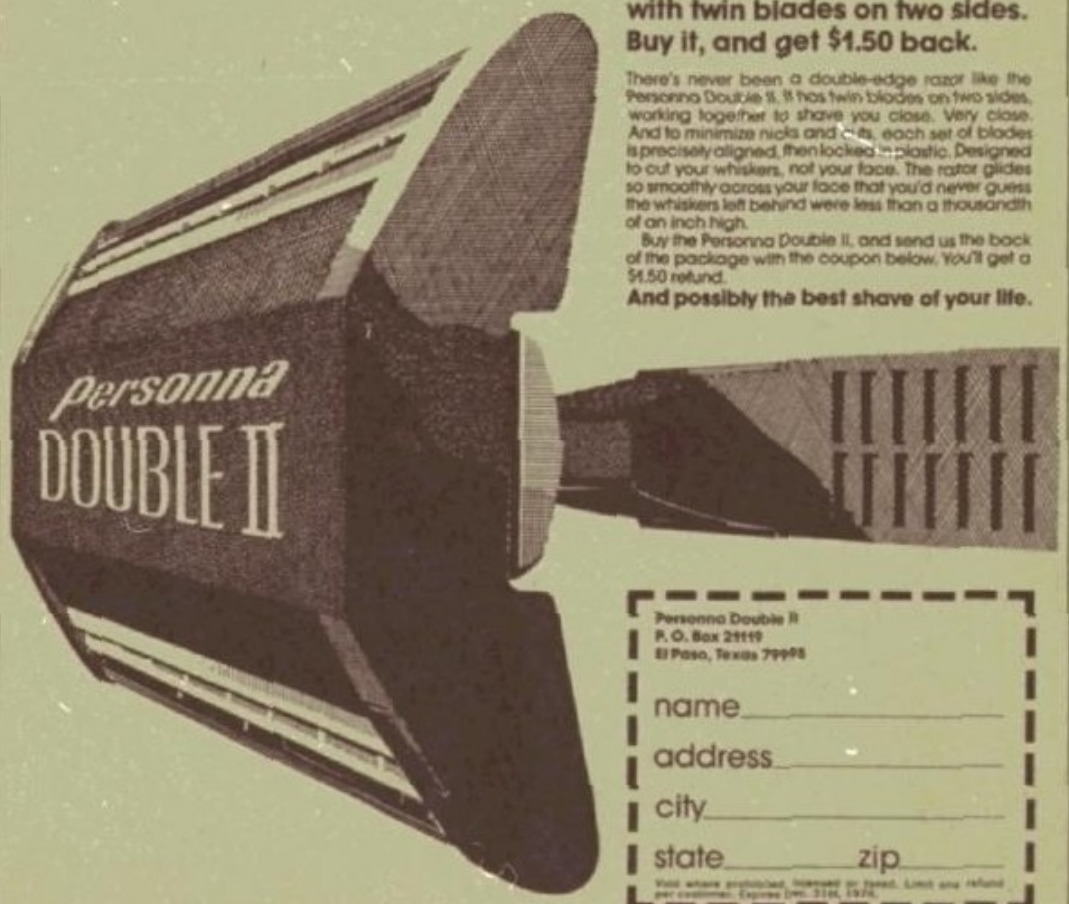
Get $1.50. And a double-edge shave closer than the ridges of your fingerprints.

Personna Double II.
The only double-edge razor with twin blades on two sides.
Buy it, and get $1.50 back.

There's never been a double-edge razor like the Personna Double II. It has twin blades on two sides, working together to shave you close. Very close. And to minimize nicks and cuts, each set of blades is precisely aligned, then locked in plastic. Designed to cut your whiskers, not your face. The razor glides so smoothly across your face that you'd never guess the whiskers left behind were less than a thousandth of an inch high.

Buy the Personna Double II, and send us the back of the package with the coupon below. You'll get a $1.50 refund.

And possibly the best shave of your life.



Personna Double II
